## PREFACE

---

THIS volume is the second printed book of the Old Records of Cambridge, and, as stated concisely on the title-page, contains "the records of the Town Meetings, and of the Selectmen, comprising all of the first volume of Records."

The period of time covered is from 1630 to 1703.

The general plan and scope of the "Proprietors' Records"—the first printed book of the Old Records—has been followed even to the mechanical features.

It has been the intention to present in this volume *all* and the *same* information which a perusal of the manuscript would present to the reader. No attempt has been made to modernize the text, or to make corrections of any description. From page 1 to page 354 the book is a reproduction of the original, except the introduction of the title, paging, and explanatory marks and foot-notes.

Throughout this volume the dates of the entries do not appear consecutively in all cases, but the dates are published in the exact order in which they appear in the originals. It has not been deemed advisable to place them in consecutive order, except when such order was in agreement with the original text.

The figures at the top of the pages indicate the paging of the transcript. The heavy figures enclosed in brackets represent the paging of the original book in its present condition.

The title "Town Records" has been used, in the belief that the appearance of the book would be thereby improved.

Brackets enclosing a blank space, thus, [        ], signify that something is missing from, or illegible in the original. Carets, ^, show that a letter or letters in a word are missing. Whenever a star, \*, appears on a page it refers to a foot-note on that page.

The task of preparing the index and reading the proofs has been a severe one, due to the worn condition of many of the pages of the original manuscript, and has compelled the greatest care in the translation of the text, that no unseemly errors might creep in.

The proofs have all been read by Miss Sarah S. Jacobs, and have been examined by reference to the original pages, to insure correctness.

As the copy was also prepared by Miss Jacobs, it will be seen that no small part of the work has fallen upon her.

That she was well fitted to perform the task must be evident from her successful effort in the issue of the "Proprietors' Records," published in 1896.

An attempt has been made to produce a complete index, and the forty or more pages devoted to this purpose indicate its thoroughness.

As a frontispiece to this volume, there is printed a map of Cambridge as existing in 1635. This map is, of course, lacking

in absolute accuracy, as there are extant few plans or maps which are available for use in preparing a positive reproduction. The compiler, Mr. Charles D. Elliot, now a resident of Somerville, Mass., has, however, taken advantage of the best obtainable data, and even a cursory examination will show its value in determining certain localities which otherwise might be difficult to understand. This plan, too, has the indorsement of Hon. Charles H. Saunders, ex-Mayor of Cambridge, who has given much thought and intelligent investigation to the earliest periods of local history.

It must be understood, however, that the map is in no sense an official one, and that it is published merely as an aid to a more complete understanding of many references throughout the text.

It will be noted that marginal annotations occur on several pages, and, lest it might be assumed that these were penned by the original clerks, it is deemed proper to say, that an examination of the manuscript will show that nearly all of the annotations are the handiwork of more modern scribes. This is proven by the modern method of spelling, as well as the arrangement of the annotations and marks in the manuscripts.

It might not be amiss to state that, in a large number of cases where names are appended to reports, etc., the names are probably original signatures in the manuscript, as in the case of the report of John Watson and Abraham Holman, under date of 8th of June, 1685, in the matter of an investigation into the condition of the highway leading to Concord. (See folio

276.) The antiquarian might discern something of value in this fact.

With this volume, there are published nine reproductions of pages in the original record.

These pages have been selected so as to show in each case, except one, the signature of the Town Clerk for the time being.

The single exception is in the case of William Spencer (1632-1635), whose name does not appear on the page which has been copied. It was difficult to find any page in the record of those earlier years which was sufficiently well preserved to be reproduced, the one selected being probably the most desirable.

For a verification of the dates of service of the several clerks, the compiler is indebted to Mr. William W. Dodge of this City, who gave freely of his experience and time in a close examination of the chirography to establish with some degree of positiveness the names of the recording officers. The compiler desires also to record the able assistance of Mr. William H. Whitney of this City, who has given valuable information with reference to some of the ancient boundary marks.

I, Edward J. Brandon, clerk of the City of Cambridge, hereby certify that the following, beginning with page 1, and ending with page 354, is a true and correct copy of the Records, known as the Town Records of the Town of Cambridge (formerly Newtowne), now in the custody of the City Clerk except that the title, paging, and explanatory marks and notes have been added in the printed volume.

[46] 21<sup>th</sup> Aprill 1656.

Complaint being made to the select men of this Towne of the necessity of a high way to be layd out on the South side the River, leading from Roxbery path to the Pines, by Charles River, wherevpon the Townfemen going over the River veiued the said way and also the high way, that leadeth from the Pines along by the meadow side, & having considered the Advantages & inconveniences of both, do Judge it best that the high way be layd out in y<sup>e</sup> line between the land of Nathaniell Sparhauke and Richard Dana, the whole length of their land, two Rod in Breadth, and also a high way to ly crofse Richard Danas land, about 50 pole, and from thence to be continued throw Richard oldams land, for a high way to watertowne. The wch high wayes the owners of the land adjacent are to have liberty to maintaine gates convenient for travellers, both for man & beaft and not to turne any cattle at liberty therein.

Also Richard Dana agreed with y<sup>e</sup> Townfmen to take five pounds in full satisfaccōn, for his land in both wayes. the long high way that leadeth from the Pines to Roxbery high way being to ly wholly in his land, and th<sup>e</sup> other crofse way thwart his land to Watertowne mill so far as his land reacheth, also Richard Dana is granted liberty to make vse of the high way annent the Springs at the Pines, and to take the Same in to his owne land by fencing the Same, vntill the Townfemen shall see meet to require the fame to be left open againe.

Also the Townfmen do grant vnto m<sup>r</sup> Edward Jacson liberty to take & fence in the highway & Comon land annent his meadow, dureing the pleasure of the Townfmen & vntill such time as they shall require the fame to be fet at liberty againe, vpon condiccōn that he shall pay vnto

Richard Dana five pounds for the purchase of the other high wayes before named, provided alwayes when the Townsmen shall see meet to recall the high way againe, they shall then repay the said five pounds to the said m<sup>r</sup> Jackson his Heyres or Assignes. —

June 9.<sup>th</sup>. 1656.

The Townsmen do consent that Thom<sup>s</sup> Dosse schochman serv<sup>t</sup> to Ens: Winship, shall have liberty to mow the grasse in the Swamp annent the north end of Spy pond.

The Townsmen do appoynt Jno. Stedman & Jno. fessington to accompany Deacon Bridge in stakeing out the high way between the West feild and Water = Towne line. —

Octo. 13. 1656.

The Townfemen do grant liberty to Bro. Jno. Stedman to fell some timber on ye comon for fencing stufte.

A Return of the Comittee Chosen as on the other Lefte hand page  
 chofen to Lay out an high way for the Country to Concord, from the  
 five mile Swamp and onwards to Concord and from Leut: ffisks to  
 Woburn, as was Ordered At the meeting on the 8<sup>th</sup> of March 169<sup>8</sup>  
 being the day of Choife of Town Officers

Upon the 17<sup>th</sup> day we mett, and began att the five mile Swamp and  
 marked trees att a convenient diftance, till we came unto Samuel Wit-  
 tamores fence; and then gave diftants Southwest of the fence, till we  
 came againft his dore, then we marked a young Elme Northeaft of the  
 high way; and So marked on both fides of the way, till we came to  
 Samuel Winships; then the widdow Winship did Informe us, that her  
 hufband had agreed with a former Co<sup>m</sup>ittee, that againft his fence  
 Southwest, that the high way Should be Six Rodd wide and we accepted  
 of it, and when we were paff the fence, we marked trees on both fides  
 the high way again att a convenient diftance till we came to M<sup>r</sup> Æfta-  
 brookes his fence, allowing that to be one fide of the high way, and  
 Marked trees on the other fide, till we came into the Lane between M<sup>r</sup>

Eastabrookes and John Poulter, and then agreed that that should be three Rodds wide, each of the proprietors allowing their due distance the Land being good, we thought might be convenient: the like we did agree with Goodman Muzzey untill we was past his present fence, and agreed with him for the feting up of his fence upon the one side of the Road, and mark<sup>^</sup> the Other to the meeting house then we renewed the Marks to Concord. Then beginning att Leiut: Hicks, we renewed the Marks toward Woburn, that had been twice marked before, by some of the present Committee, till coming to John Tidde's field, we found the highway encumbered, with with fence and broken up Land, and when we were past that, we renewed the marks of the high way to Woburn Line.

The return of y<sup>e</sup> s<sup>d</sup> Co<sup>m</sup>mittee.

We whose names are under written being appointed a Co<sup>m</sup>mittee by y<sup>e</sup> Select Men of Cambridge as appears by an order bearing date y<sup>e</sup> 11<sup>th</sup> of December 1699: to Consider of a Convenient high way for sundry of o<sup>r</sup> Neighbo<sup>r</sup>s living Northward of o<sup>r</sup> Parrish to come to y<sup>e</sup> publick Meeting and to Market: Accordingly we did attend it y<sup>e</sup> 18<sup>th</sup> day of this Instant, and do Judge it most Convenient to be where it now is allowed and fenced from John Lawrence his house to y<sup>e</sup> Brook Southerly & so continuing along by Goodman Nuttings ffence that now is till it come to M<sup>r</sup> Goffes Lott, & then upon y<sup>e</sup> Edge of M<sup>r</sup> Goffes Lott till we come to Goodman Kerlys land, & so through his land where it has formerly been laid out, Continuing till it come at a Swamp upon M<sup>r</sup> Aaron Bordmans land (as we were Inform'd, w<sup>ch</sup> we think will be inconvenient by reason of y<sup>e</sup> chargeableness it will attend to make it pafsable, and the small inconveniency that will be to the Proprieto<sup>r</sup>:

to compafs y<sup>e</sup> weft end of the Swamp till we come to Joseph Teeds land, & fo continuing where y<sup>e</sup> way is now trodden till we come unto y<sup>e</sup> Countrey Road y<sup>t</sup> leads from Concord to Oburn between Joseph Teeds and John Johnsons: and further we think it may be convenient that y<sup>e</sup> way go up by the Widow Teeds & fo continuing till it come at y<sup>e</sup> Meeting houfe where it is now trodden
